#### Description

Museum in nature Vysočina is the only museum of this nature in the Pardubice region. It consists of two exposition units - Veselý Kopec and Bethlehem Hlinsko (housing of small craftsmen, exposition of carnival masks and patrols), about 8 km apart. The card describes the accessibility of the exhibition Veselý Kopec.

The exposition at Veselý Kopec presents the housing of small farmers in the period from the mid-19th century to the mid-20th century and the technical monuments of water propulsion. The museum is open seasonal (roughly from mid-April to late October) and during thematic events dedicated to the carnival or Christmas tradition. The guided tour lasts 90 minutes.
